Direct Support Professional

Full-Time position

The primary responsibilities of the Direct Support Professional is to work with other day program personnel in developing and instituting a therapeutic program to help clients develop and maintain functional life skills, Activities for Daily Living as well as Community Based Exploration skills. These skills will contribute to their development as mature, able, and responsible individuals. Using professional expertise and supervisory and other resources provided, the Direct Support Professional helps facilitate the Day Program client's daily schedule. Direct Support Professionals will follow all policies and procedures that are required by NB4T, attending all trainings as well as maintaining records necessary for the Division of Developmental Disabilities. Experience working with adults with autism and developmental disabilities preferred.
